

# BASIC PLAN

## The Biggest Vitrine in the World

Living in the digital world, a **website is now a necessity for a business**, big or small. If you have a business and don't have a website, you are probably losing a number of **great opportunities for your business**.

**Increasing visibility** is one major factor that makes having a website important.

A website is also important because it **helps you establish credibility** as a business. Most people just assume that you have a website since the vast majority of businesses do, at least the vast majority of big companies do.

The more professional your website is, the **more advantages** you can gain.
