

OPTIMIZATION PLAN

The Biggest Vitrine in the World

I am sure you've heard this term several times "Website Optimization". Of course, you want to make the best of your website, but you probably don't know how to do it.

In order for your target market **to find your website, you must optimize it**. By optimizing your website, you will be able to use it effectively even if they don't yet know that it exists.

It is very important because optimization increases the quantity and quality traffic to your website using some SEO (Search Engine Optimization) tools.

Your **target** is to invite **more visitors to your website** and soon can become your customers.

What does it include?

- Domain Name for 1 Year
- Website hosting for 1 Year
- We build your website
- Design it with a Responsive (Mobile-friendly) and Modern design
- Administrate your Website
- Review and web content improvement for better visibility
- Optimize your website visibility on Google (SEO) for 1 Year
- 2 hours of training on how to manage your website

What it doesn't include.

- Social Media Management
- Domain Name and Web Hosting renewals for the following years

** These estimated prices depend on the size, the complexity and the features of your site.*
